EDUCATION

ISABELA STATE UNIVERSITY- CAUAYAN CAMPUS Cauayan City, Isabela
Bachelor of Science in Information Technology July, 2025
Specialization Track: Web and Mobile Application Development

WORK EXPERIENCE

ISABELA STATE UNIVERSITY- CAUAYAN CAMPUS Cauayan City, Isabela
(Management Information Systems – Intern) Feb 2025 - May 2025

- Assisted with hardware setup, troubleshooting, and system support for campus IT operations.
- Helped prepare technical documentation and reports related to system maintenance and IT infrastructure. %
- Developed and supported a Web **Student Voucher Network Access System** used for managing student network vouchers through RFID card scanning.
- Participated in system maintenance and other IT-related operational tasks.

PROJECTS

RFID-Based Student Voucher Network Access System
Tech Stack: HTML5, CSS3, Javascript, Php, MySQL, RFID

- Developed a system that generated network vouchers when student scan their RFID cards.
- Implemented real-time student verification to control voucher access.
- Built features for monitoring vouchers distribution and managing student records.
- Designed an administrative dashboard to track system usage and voucher activity.

QR Code Attendance & DTR Management System
Tech Stack: HTML5, CSS3, Javascript ES6, Electron.js, Node.Js

- Built a desktop attendance and DTR app with electron and a modern Glassmorphism UI.
- Developed QR-based attendance tracking with automatic session mapping and working-hour calculation.
- Implemented a reliable offline JSON storage system with atomic-write operations for secure, serverless data handling.
- Created admin dashboards and tools with secure login, member management, report exports, and real-time analytics.

Animal Corner – Pet Profiling & Veterinary Appointment Mobile App (Capstone Project)
Tech Stack: Flutter, Dart, Firebase Authentication, Firestore

- Developed Animal Corner, a Flutter app connecting pet owners and veterinary clinic.
- Built pet profiles with photos, medical history, and smart appointment scheduling.
- Integrated secure authentication and real-time notifications via Firebase.
- Implemented offline data persistence, cloud sync, and responsive UI with Provider and Firestore.

ADDITIONAL

Technical Skills: HTML5, CSS3, Javascript, Typescript, Node.Js, MySQL, Supabase (PostgreSQL)
Soft Skills: Communication, Problem-Solving, Teamwork, Adaptability, Attention to Detail, Time Management, Initiative
Languages: Tagalog, English
Tools: Git, Github, VS Code, AntiGravity (Claude, Cursor, ChatGPT**)**
